

LEVARECH AI

Full AI Automation & Digital Sales Package Guide

South Africa + International Pricing

Core services • Combined systems • Advanced systems • Monthly maintenance • Business targeting

Core Services

WhatsApp Lead Automation • AI Voice Receptionist • Custom Business Websites

Combined Systems

AI Communication System • AI Business Automation System

How to Use This Sales Guide

The salesperson should identify the client's main customer-contact problem first, then recommend the relevant system. Sell the outcome—faster response, more booked appointments, fewer missed calls, better lead management—not simply “AI.”

Qualification question: “How do most of your customers contact you—WhatsApp, phone calls, or your website?”

WhatsApp → WhatsApp Lead System

Phone calls → AI Voice Receptionist

No/poor website → Custom Website

Multiple problems → R20k/R30k combined system

Important Cost Rule

Third-party usage costs such as ElevenLabs, telephony, WhatsApp/Meta messaging, SMS and other provider charges should be billed separately where applicable. Monthly maintenance is the Levarech AI management, hosting, monitoring and optimisation fee.

1. WhatsApp Lead & Appointment System

What it does: Automatically responds to WhatsApp enquiries, qualifies leads, collects customer information, follows up and helps book appointments.

Best Business Types

- **Dentists:** qualify new patients, answer common service questions and book consultations.
- **Doctors & medical practices:** handle appointment enquiries and collect patient enquiry details.
- **Attorneys:** qualify potential clients and collect case/intake information before a consultation.
- **Car dealerships:** qualify buyers, collect vehicle preferences and arrange test drives or sales appointments.
- **Auto workshops:** collect vehicle/service details and schedule bookings.
- **Real estate agents:** qualify buyers/tenants and arrange viewings.
- **Salons & beauty businesses:** answer service/pricing questions and book appointments.
- **Gyms:** handle membership enquiries and schedule consultations/tours.
- **Contractors & home services:** collect job details and arrange site visits.
- **Cleaning businesses:** collect property/job requirements and arrange quotes or bookings.
- **Photographers & event businesses:** qualify enquiries and schedule consultations.
- **Training/education businesses:** answer course enquiries and schedule consultations.

Base System — International: \$2,000

Same core functionality for international clients.

Monthly Plans

International	Best for
\$99/mo	Low-volume businesses
\$199/mo	Growing businesses
\$299/mo	Higher-volume businesses

2. AI Voice Receptionist

What it does: Uses ElevenLabs voice AI to answer calls, handle common questions, qualify callers, capture lead details and book appointments.

Best Business Types

- **Dentists:** answer calls after hours, qualify new patients and book consultations.
- **Doctors/medical practices:** handle appointment requests and common practice questions.
- **Attorneys:** capture potential-client information and book consultations.
- **Car dealerships:** handle vehicle enquiries, qualify buyers and arrange test drives.
- **Auto repair/workshops:** collect vehicle and service information and schedule jobs.
- **Real estate:** qualify prospects and schedule property viewings.

- **Beauty clinics/salons:** answer service questions and book appointments.
- **Hotels/guesthouses:** handle availability enquiries and booking-related calls.
- **Gyms:** handle membership enquiries and schedule tours.
- **Home-service businesses:** qualify jobs and arrange appointments/site visits.
- **High-call-volume businesses:** reduce missed calls and provide 24/7 first-line reception.

Base System — International: \$2,000

Same core functionality for international clients.

Monthly Plans with Included Voice Minutes

International	Included AI Voice	Best for
\$149/mo	300 min	Small businesses
\$299/mo	750 min	Established businesses
\$499/mo	1,500 min	Busy businesses

Additional AI voice minutes and provider usage are billed separately according to actual usage.

3. Custom Business Website

What it does: Creates a professional online presence designed to turn website visitors into calls, WhatsApp enquiries and customers.

Best Business Types

- **Attorneys:** showcase practice areas, credibility, contact options and consultation calls-to-action.
- **Dentists & medical practices:** present services, location, trust signals and appointment options.
- **Car dealerships:** showcase vehicles, financing information and enquiry channels.
- **Real estate:** showcase listings, agents and property enquiry forms.
- **Auto workshops:** show services, location, reviews and booking/contact options.
- **Salons & beauty:** show services, portfolio, pricing and booking links.
- **Restaurants:** menu, location, opening information and enquiry/reservation pathways.
- **Guesthouses:** show rooms, amenities, location and booking enquiries.
- **Construction/contractors:** portfolio, services, service areas and quote requests.
- **Cleaning businesses:** services, areas served and quote/contact forms.
- **Photographers:** portfolio, packages and enquiry/booking forms.
- **Professional services:** credibility, services, contact and lead-generation pages.

Base Website — International: \$750

Same core website service for international clients.

Monthly Plans

International	Includes
\$39/mo	Hosting, SSL/security, basic maintenance
\$79/mo	Hosting, security, minor updates, support
\$149/mo	Care + improvements, SEO/conversion optimisation, new content/sections

4. AI Communication System

• International: \$2,500 setup

WhatsApp + AI Voice Receptionist + ElevenLabs + Basic Business Integrations

Best Business Types

- **Dentists/medical practices:** WhatsApp patient enquiries + phone reception + appointment booking.
- **Attorneys:** qualify enquiries through WhatsApp or calls and schedule consultations.
- **Car dealerships:** qualify buyers on WhatsApp and phone and arrange test drives.
- **Auto workshops:** collect service requests and book jobs through both channels.
- **Real estate:** qualify prospects and schedule viewings from WhatsApp or calls.
- **Beauty businesses:** answer questions and book appointments across both channels.
- **Home services:** capture job requirements and schedule site visits.

Included

- AI WhatsApp responses and lead qualification
- ElevenLabs AI voice receptionist
- Inbound call handling and FAQ responses
- Lead capture and qualification
- Calendar appointment booking
- Basic CRM connection
- Email notifications
- Basic automation and follow-up
- Initial system configuration and AI training

Monthly Plans

International	Voice Minutes
\$199/mo	500 min

\$299/mo	1,000 min
\$499/mo	2,000 min

5. AI Business Automation System

• International: \$4,000 setup

WhatsApp + AI Voice + ElevenLabs + Proper CRM Integration + n8n Automation

Best Business Types

- **High-value appointment businesses:** dentists, doctors, attorneys and specialists where each lead is valuable.
- **Dealerships:** automatically move vehicle leads from enquiry to salesperson assignment to appointment.
- **Real estate:** route and track buyer/tenant leads and automate follow-up around viewings.
- **Home-service companies:** capture job requests, assign leads and track appointments.
- **Multi-staff businesses:** automatically assign leads to the correct staff member or department.
- **High-volume businesses:** keep every WhatsApp and phone lead inside a central CRM instead of losing conversations.

What Makes It Advanced

- Proper CRM integration

International	Voice Minutes
\$399/mo	500 min
\$599/mo	1,000 min

\$799/mo	2,000 min
----------	-----------

- n8n as the automation layer
- Automatic lead creation and assignment
- Lead pipeline and stage updates
- Conversation/activity logging
- Automated follow-up sequences
- Lead routing
- Internal notifications
- Appointment tracking and confirmations
- CRM-to-calendar workflows
- Multi-step workflows
- Custom integrations where required
- Ongoing workflow optimisation

Example Workflow

New WhatsApp/call lead → AI qualification → n8n → CRM lead created → lead assigned → follow-up triggered → appointment booked → CRM updated → confirmation sent → reminder.

8. Sales Ladder

Entry: \$2,000

Use entry products when the business has one obvious problem.

Combined: \$2500

AI Communication System

Use when the business needs both WhatsApp/Message System and phone automation.

Advanced: \$4000

AI Business Automation System

Use when the business needs a proper CRM, n8n workflows, lead routing, automated follow-ups and end-to-end lead management.

International equivalents: \$750 Website • \$2,000 WhatsApp • \$2,000 AI Voice • \$2,500 AI Communication • \$4,000 AI Business Automation

Core sales message:

“We don't just install AI. We build systems that respond to customers, qualify leads, book appointments and keep your sales process organised.”
